

Atlas Copco Generators

Designed to perform, built to last

QAS 45 (60 Hz)

With standard features that maximize safety and minimize environmental impact, the QAS 45 also features:

- Diesel power from the reliable Kubota engine
- Electrical power from a Stamford BCI series alternator
- Atlas Copco QC1002 control system
- 24 hour run-time fuel capacity inside the base frame

The QAS 45 line offers quieter operation, reduced emissions, and lower acquisition and operating costs.

Control Panel

A comprehensive instrument panel enables all key operating functions to be supervised without opening the canopy. Analog gauges provide at-a-glance monitoring. Protected by a tough transparent cover, the single panel provides easy start up and control of the generator. The panel also provides full system monitoring to ease operation.
